Prospects of a Miners' Strike Being Settled.

CONFERENCE AT BIRMINGHAM.

Some of the Largest Collierles in the Country and Eight Thousand Miners Divolved-Other Labor Dispatches.

BIRMINGGAM, Aln., July 3.-A conference is being held to-day between a committee from the striking miners and the immagecs of some of the largest conl companies in this district. Every effort will be made to bring about a rompromise of the hifferences between the miners and the operators.

Indications are that the efforts will succeed and that the strike will be settled before the end of the week. Eight thousand men are involved.

Sewer Lahorers Onl.

SUPERIOR, Wis., July 3.—Six hundred sewer laborers, street men, excavators and lamoer-yard men struck yesterday. All public work in the city is at a standstill, and the right promises to be a hard one. The contractors declare they cannot anord and will not pay to exceed \$1.55 per day. The citizens are favorable to the strikers, and the latter are quiet and orderly.

from Mountain Brakers.

St. no is, duly 3.-A strike of the brakemen on the Iron Mountain taistoac is about to occur. The mercacanand the discharge of H. F. Sanders, an obnoxions train master, and the adjustment of some other grievances. The railroad company, it is said, refuses to consider the matter.

Asklug More Than Double,

Curcyco, July 3.—Eight lundred sleeping car and dining car porters runsteeping car and dining ear porters running into Chicago threaten to strike soon unless they get a ruise of \$40 per month. They now get \$15. The tipping system is, they say, on the decline, and they are compelled to ask for an increase in wages on this account.

St. Loals Freighters Compromise. ST Louis, July 3.—The freight handlers' strike is at an end, a compromise having been effected at a meeting of the parties concerned last night. The men demanded \$1.50 per day. The roads offered \$1.40. These figures were accepted and the men returned to work.

End of a Strike.

Cincinnati, July 3.—About 1,200 of the striking carpenters went to work yeste, day under the new nine-hour scale, besides the representatives of other trades who went out through sympathy.

SAW THE RED MESSIAH.

A Brave Gives a Vivid Description of

Their New Savior. FORT CUSTER, Mont., July 3.-The Indians on all the reservations in this section are in a state of excitement bordering on frenzy over the coming of the Messiah. A few days ago Porcupine, the apostle of the new Christ, gave to an army officer the story of his meeting

with the Messiah. Monday evening he arrived here with Menday evening he arrived here with a few followers and related his story with additional details. He spoke to the efficers and ladies of the post for over an hour and fully explained his religion, which closely resembles the Christian religion of the whites, except that Porenpine claims positively that Christ has come back to earth, and is Christ has come back to earth and is now in the flesh near Walker Lake, Nev.

Poccupine says he saw marks on the hands of the Christ, who said he had been nailed to a tree by the hands, and that spikes had also been driven through his feet and bis side had been ent open. The Christ did not show the sears on his feet as he had on his shoes, nor did he show the wound in his side, but all knew that what he said to them was

Porenpine did not know anything about the first Christ, but he says this Christ told him that he had been on earth hundreds of years ago, when he appeared to the white people, who used him roughly and even killed him.

Porcupine said he did not believe in the Christ when he first heard of him, but no seener did he see him than all doubt vanished from his mind and he knew he was looking at a god. He had never seere such a man before and never would unless he saw this man again, which he menut to do.

It was evening when Christ came walking into the camp, and all knew who he was without being told. He described Christ as a large man, with a noble carriage and face. Christ did not speak the first day Porcupine saw him, but commenced talking on the next day soon after sunrise, and did not cease until the sun was near the western

Fight With an Infortated Bull.

HERTFORD CITY, Ind., July 8,-M. C. Herdinnii, of Cardington, O., was terribly gored and bruised by a cross Jerfarm, just outside the corporation. Herdman was hauling lany when the bull attacked him. He would doubtless have been killed outright had it not been for the fact that he crabbed all. been for the fact that he grabbed the bull's nose ring, which caused him to desist long enough for Herdman to get over the fence. She left a note begging her friends to forgive her for her rash act, stating Howard, son of Josiah Pratt, two miles

UNCLE SAM'S DANDER UP.

Tired of Fooling With the Poaching Britlsh Scalers in Behring Sen.

PORT TOWNSEND, Wash., July 3.—The arrival of Col. A. C. Matthews, first comptroller of the treasury, in Port Townsend Monday caused some little excilement. The colonel brought orders from the treasury department for the commanders of the revenue cutters Richard Rash and the Corwin. The Rush immediately prepared to proceed to sea. The Corwin Tuesday took water at the fort, and sailed Wednesday after-

The department deemed the dispatches of such importance that they would not intrust them to the ordinary methods of delivery, but sent them by hand, and would even then allow only one of the highest officials in the department to carry them. Col. Mathews delivered als orders to both naval officers, and left Thesday inght on the City of Kingston for Taconia, on his way back to Wash-

The orders to the Rush were to proceed at once to Onalaska and then to patrol Behring sea, seize all vessels found in the sea with sealskins aboard, or any other prima facie evidence that the vessels had been poaching. The enters are to then take the papers and instruments and leave on board only sufficient quantity of food to keep the erew until the vessel reached the nearest porc. If any resistance is offered the poachers are to be fired upon and compelled to surnit.

Capt. Ho per, of the Corwin, said that although the orders to the Rush were for her to sail the Corwin was still waiting to hear from Washington.

The documents he received from Washington were of no public interest, but simply private communications from the department, and he did not rare to make public their contents. They also treated, he said, of details to be carried out in enforcing the revenue laws, but were nothing different from what had been published.

As it had been reported that a change of policy had been instituted by the scate department Capt. Hooper was asked if there was anything in the re-

He said that, so far as they knew, there had been no orders issuing deviating from the policy outlined in the first general orders issued by the nuthorities. The Rush, Capt. Hooper said, was to proceed direct to sen and carry out the instructions of the trensury department. He expected to receive orders almost any day and was ready to proceed north

without delay.

The orders received by the Rushi are sealed and will not be opened until the vessel is nt sen. From one of her officers I learned that the general impression on board was that there would be no change in the policy already ontlined

by the department.

The British Government is centralizing the Pacific squadron at Esquimant and it may be that the sealers will be protected by the authorities. The Amphion is now at Esquimault and five other war vessels are on their way there. When the squadron is mustered, it is reported, two and perlmps three vessels will be sent to sea and will see that no British vessel is outraged nor the British tlag insulted.

End of a Long Trial.

NEW YORK, July 3.—The long-pending suit of the Union Insurance company, of Philadelphia, against the Continental Insurance rompany, of New York, resulted yesterday in a verdict for plnintiff. The inse grew out of franda-lent transactions of Agent Lorenzo Dimiek, of Buffalo, in saddling part of the Continental's marine losses upon the Union. Dimick died in Canada, whither he fled in 1884, while under bail pending an appeal from a sentence to five years' imprisonment. The amount involved in the fransaction was \$70,000. There are a number of other litigations pending on same matter which this trial will probably result in settling.

Knocked a Ride-Stealer's Rive Out.

Wanasu, Ind., July 3.—Last Friday evening Edward and Arthur Harris. claiming Chicago as their home, got on the Wabash railway express train, intending to steal a ride on the front end of the express car. Fireman George W. Adams, of Andrews, hit Edward with a lump of coal, putting out one of his eyes. Adams was arrested, had his preliminary henring yesterday, and was bound over in the sum of \$500. He is well-to-do, and it is intimated that suit for gamage will follow.

Leeds' Laber Troubles.

No Promise of an Early Settlement.

BOTH SIDES REMAIN FIRM

The Strikers, However, Have the Sympathy of the Public, and It Is Befleved That They Eventually Will Be Successful-Various Other Foreign News.

London, July 3.—Order has been restored in Leeds, but the contending parties are as firm as ever. The prospeets of a speedy settlement of the strike is not promising. A committee of the gas company held a conference with a deputation of the strikers yes terday, in an endeavor to arrive at an agreement, under which the men should return to work, but owing to the obstinute adherence of the one party to the determination not to yield, and the refusal of the other to modify their demands no conclusion was reached and the meeting adjourned.

An effort was made to have the dispute arbitrated, but even this proposition was unfavorably received. There is much public sympathy with the strikers, and groups of angry and ex-cited townsmen are constantly forming in the streets to discuss the situation and denounce the gas company. There is no suggestion of violence in these gatherings, and the police confine them-selves to keeping the streets open to truffic.

tensors of England.

London, duly 3.—The census of England will probably be taken without any questions as to the religions belief of the people. The non-conformists are minimons in their opposition to the proposal, and as the archbishop of Canterbury has also adopted the same view, this provision of the census bill will no doubt be abandoned. It is believed that the statistics would be far from reliable and would give fictitions numerical strength to the established church, through pressure brought to bear on the poorer classes. The primate of all England was shrewd enough to see that to press the religious clause of the census mensure might give rise to a religious struggle that would hasten the downfall of the establishment, and therefore his attitude in favor of withdrawal.

Will Celebrate the Event. London, July 3 .- It is stated that the formal transfer of Heligoland to Ger-many will be attended by an elaborate naval display, preparations for which are already unking. The Heligolanders are gaining sympathy in England by their pathetic pleadings to be allowed to remain British subjects. The British National anthem was sing with ferver by the assembled population in the recent landing of Governor Barkeley and the istanders crowdled around him with eager pleas not to be given over to Germany. Nearly every house is conspicuonsly decorated with the British colors, Their rase, nowever, is considered hopeless, as it is unpossible to organize a ditinct party opposition to the measure in parlinment, many members of the Liberal party being in favor of cession.

Report on the Maminoth Petition.

London, July 3.—The parliamentary committee, to whose consideration the monster petition of the publicans in favor of compensation was referred, has advised the honse of commons to decline to receive it. The committee states that it has carefully examined the petition and finds many objections to its reception, the chief of these, however, and the ones upon which the report is based, are the obscenity of its phraseolby the committee, are fictitions. An inevitable rejection of the petition will be mother triumph for the opposition.

Result of an Election.

London, July 3.—The election at Barrow-In-Furness to fill the seat made vacant by the resignation of Mr. W. Death of an Editor.

Hammuna, July 3.—Herr Max Prellor, chief editor of The Hamburger Correspondence, is dead.

St. Croix Falls, Wis., July 3 .- There is great excitement over a big discovery of copper and silver at Kettlo River Rapids. For years search has been made for the main lead and nuggets of pure copper and silver had been washed from a large vein. This vein was yesterday located for a long distance. It is said to be extremely rich, the copper being dendritic and easily mined, while the silver is in detached particles and found with the copper.

PENNSYLVANIA DEMOCRATS.

They Meet in Scrunton and Nominate a Stale Tleket.

SCRANTON, Pa., July 3.—The Democratic state convention met here yesterdny. Hon. Eckley B. Coxe, of Leuzerne, was chosen temporary chairman, a temporary organization affected and a recess taken mitil 2 o'clock.

When the convention reassembled at 2 p. m. the committee on organization, through Chairman Singerly, reported in favor of William F. Harrity for permanent chairman. The report was adopted and a list of vice presidents and secretaries was also agreed to.

The committee on resolutions then reported the platform, which was mani-monsly adopted, after which the clairman announced that nominations for governor were in order.

William E. Wailace was placed in william E. Wallace was placed in nomination by Judge Davis; ex-Gov-eruor Pattison by William Stieger: Robert S. Wright by A. G. DeWalt; William U. THURSDAY, JULY 3, 1890

"The elections there are absolutely fair." "No Republican, white or black, is prevented from casting his vote." North Carolina, and as they come from a Republican Congressman, they ought to put a quietus on Republican rant about " a free ballot and a fair count," as far as the Old North State is concerned.

EWART, the leading Southern Republi can in Congress, denounces his party's Force Election bill as "damnable, iniquiitous and vicious." And he was right when he intimated there were other Republican members who thought as he did on the subject, but lacked the courage to oppose it and vote against it, for fear of Reed, the despotic Speaker of the House.

BISHOP POTTER thinks the politicians are fast running the pension businessinto "a pauperizing system whose least and most innocent consequence is the ruinous burden which it is destined, sooner or later, to saddle upon the public treasury." Who will say he is not right in hs views? Things have reached that stage when "skulking camp followers and deserters," and "fraudulent and tainted claimants" are placed on an equal footing with "scarred and honorable veterang, brave and maimed survivors of heroic charges."

CHRISTIAN COUNTY is one of the Republican strongholds of this State, and has been for years. Now comes the has long been considered one of the most news that investigatron of the books of desirable business locations in the city. John Boyd, the defaulting Republican ex-Sheriff of the county, for only one of the four years of his service, reveals a shortnge of \$8,000, and it may reach \$20,-000 when the examination is complete. Boyd is shown to have systematically kept back large sums of money collected on taxes, and raised assessment lists in hundreds of instances. The exposure, coupled with the fact that he is a candidate for re-election and one of the most prominent Republicans in the county, has emoralized his party. A singular feature of the case is that the county officials are not making any special effort to punish him for his crimes.

The Postoffice Trouble.

Postmaster Davis has returned from Washington City where he went a few days ago to have the office placed back in the second class, if possible. He was very kindly receivd by Postmaster General Wanamaker and Department now has the matter under consideration. An Inspector will probably arrive here in a few days to investigate the case and inquire into the needs of the office.

Mr. Davis is very warm in his praises of Representative Paynter and Senator Blackburn for the assistance they rendered him. Senator Blackburn accompanied him to the Department and laid the case before the Postmaster General. Both Mr. Blackburn and Mr. Pavnter are doing all they can to have the case favorably acted upon by the Department.

Death of a Native of Maysville.

Mrs. Mary A. Levi died Jone 24 at the home of her son-in-law, Mr. Charles Rudy, in Memphis, T nn. Deceased was a native of Maysville and resided here many years. She was a sister of the late Wm. S. and John D. Bridges, and was seventy-nine years of age.

The three virtues of the shoe business Are price, style and quality, And the greatest of these is quality.

The reason is palpable, for QUALITY is the thing which gives price its attractiveness and style its endurance. QUAL-ITY is the vertebra which runs all through the shoe, without which it becomes a shapeless and worthless thing at the first strain of wear. QUALITY is the blood that permeates the entire shoe system—invisible, yet giving strength to every part QUALITY is the final test of a shoe. It's what everybody expects to get, no matter how cheap or how common the shoe they buy. Without QUAL-ITY price and style are nothing. That's why QUALITY is the chief thing in shoes.

Do you wonder that we give QUALITY the chief place in our esteem? That we are more style is perceived at a glance. But QUALITY is a modest virtue, with many base imitators. We must watch if we want the real thing. So, we don't need to say a word in special, about price, nor about style to you; you can see these things. We only say we guarantee quality on our reputation as a firm engaged for

IMPORTANT MEASURES PASSED.

One Senale Bill Affects a Quarter of a Million Land Patents-The House Discusses at Length and Flually Passes the Federal Election Bill.

WASHINGTON, July 3.—Senator Plumb from the committee on public lands re-

Senators Plumb, Paddock and Berry in speaking of the necessity for the passage of the bill, said that there were some 250,000 lands patents accumlated in the general land office, for which those entitled to them had not applied: that a thrifty firm of Washington attorneys had been permitted to have lists made of them: that they had then communiented with persons entitled to them, notifying them that they could get their patents for them on the pay-ment of a fee; this was an act of collision between the assistant commissioner (who was then assistant secretary of the interior acting as a commissioner) and the law firm; and the bill was designed to frustrate that job.

The bill was passed. It directs the secretary of the interior to send to the recorder of deeds in each county in which lands so patented lie, lists of the lands patented in that county which have been in the land office uncalled for

for twelve months. Mr. Hiscock called up his resolution to reconsider the vote by which the senate Tuesday refused to recede from its amendments to the legislative appropriation bill. The motion to reconsider was agreed to, and after some discussion the senate receded from its amendment regarding senators, clerks and their compensation and the bill was passed and now goes the president for his signature.

Mr. Cockrell offered a resolution which was agreed to, calling on the secretary of the interior for information as to the number of pensioners borne on the list at each pension agency on June 1, 1890, and the amount for clerk hire at each agency.

The senate then proceeded to the consideration of the two senute bills reported from the committee on commerce, to place the American merchant marine engaged in foreign trade upon an equality with that of other nations; and to provide for ocean mail service be-tween the United States, and foreign ports and to promote commerce.

Mr. Frye spoke as to both bills, explaining the the first as a bounty on tonnage for all ships, sail or steam, wood, iron or steel, of a certain class, and that class being a perfect requirement. It was the bill agreed upon by the Shipping League Association of the the Shipping League Association of the United States and land been very largely and warmly endorsed. Mr. Frye said that the commissioner of navigation estimated its cost for the first year at about \$3,000,000, and its cost for three or forr years at \$5,000,000 or \$6,000,000, but Mr. Frye thought the cost in five or six years would be \$7,000,000 or \$8,000.-

The other bill was a postal subsidy bill and authorized the postmaster general to make contracts after advertisement, with the lowest bidder for the carrying of United States mails on American vessels. It provided for four classes of American vessels. The first class was to be of not less than 8,000 tons measurement, capable of maintaining a speed of twenty knots an hour. No contract was to be made for carrying the mails between the United States and Great Britain except on that class of vessels. The English ships he said, were not so well built as the American ships. He had no doubt that if the bill became a law there would be in three years a line between New York and

A line of four ships under the bill would cost \$800,000 a year, which he thought reasonable. A fourth class ship would receive \$1 in bounty, where a first class ship would receive \$6, and yet the dollar bounty would be better pay for the fourth class ship than the \$6 for the first class.

It would be less than Great Britain paid the Cunard line, or the United States had paid the Collins line. The second class vessels were to have a speed of eighteen knots and to be first class in every particular. The third class would be of 3,000 tons, and the fourth class, of the ordinary run of steamers, either wood or steel, of 1,000 tons, such as would be used to cross the Curribean sen and the Gulf of Mexico. All these vessels were to be taken as cruisers whenever necessary.

He analyzed the carrying traders of the United States, and found that the United States paid over \$160,000,000 last year to foreign vessels for carrying American imports, exports and passengers. This showed that the American carrying trade was dead, so far as foreign commerce was concerned. There were only four or five lines of steamers left. One of these was to Brazil, and was kept up by mail pay from the Brazilian government, and in no other possible way. It had never paid a divi-dend, and the United States would not pay it for carrying the mail, or even enough for handling it. He compared the lines to Veneznela and to Cuba, showing how foreign governments were

aiding competing lines.

Mr. Frye said that New Zealand had withdrawn her subsidy from the Pacific Mail Steamship company and Mr. Spreckels' line now had that subsidy. The Pacific Mail could not compete with the subsidized line of the Canadian Pacific and would have to disappear. Unless congress did something soon there would not be a line on the ocean carrying the American flag. The American carrying trade, he said, was dead for the want of protection. It was the only great American industry of which this could be said. One contains this could be said. Our coastwise carrying trade was protected, with the result ing trade was protected, with the result an explosion of molten metal at Barthat our coastwise freight was larger ton's foundry yesterday. The building

world and our freights were the lowest. A calculation which he had made as to the difference in cost of operation between the steamship Alliance, of the Brazilian line, and other ships of the same size in the same trade showed that with the subsidy the Spanish vessed had Doings in Both the Senate and with the subsidy the Spanish vesssel had an advantge over the American of \$10,-748 a month; the Italian. \$8,000 a month; the French. \$9,094; the German. \$8,024, and the British ship, \$7,100. Was there any remedy for this? In his opinion there was but one—protection by boun-ties or subsidies to American ships in the foreign carrying trade.

Mr. Vest spoke in opposition to the bill. He was opposed to subsidies. The cattle trade was languishing, yet if he were to propose a subsidy for it, his proposition would be attacked as monfrom the committee on public lands reported to the senate a bill to provide for the delivery of land patents to their rightful owners, and asked for its immediate consideration.

proposition would be attacked as monstrons. Speaking rather contemptuously of the recent Pan-American conference, Mr. Vest quoted an interview with the delegate from the Argentine contederation, to show that under the high tariff system of the United States, there could be no large trade between the two countries.

After a short secret session the sen-

Election Bill Passes the House. Washington, July 3.—The house met promptly at 10 o'clock yesterday and resmued the consideration of the Federal election bill, the pending question being on the amendment offered by Mr. Tucker, of Virginia, requiring the judge of the cheuit court, associated with the judge of the districts, to pass upon applications for supervisors of election.

The amendment was rejected. Mr. Rowell, of Illinois, offered an amendment making it the duty of the eircuit judges in each circuit, within one month after the passage of this act to open special term of eircnit court in their respective circnits; said judge to appoint for each judicial district three discrect persons of good standing to be known as United States juror commissioners. The duty of these commissioners to be to organize as a board, and from time to time make from the qualilied voters a list of persons who, under the laws of the United States and the state, shall be eligible for jury duty, without respect to race or color. The amendment also provides that hereafter all panels for jurors shall be drawn by the board in the presence of a district and circuit judge.

Mr. Rowell's amendment was agreed to on a vote by tellers-yeas, 146; nays,

Considerable confusion followed the announcement of the vote. Mr. Outhwaite, of Ohio, said the yeas and nays had been demanded. The speaker said the demand was too late. The Democruts all rose to their feet at the request and nays, and the speaker said that is there was no objection the yeas and nays would be ordered. The yeas and nays were called and the amendment on Second street, opposite Myall & Shackle-tond's, where I will be found at all times. All work done in first-class style and warranted of Mr. Outhwaite to demand the years

the bill, to insert the words: "Except Section 1989 of the revised statutes of the United States." He explained that that section of the bill empowered the supervisors to use the army and mavy at the polls, and the purpose of his amendment was to eliminate that provision.

Two o'clock having arrived the speaker declared the previous question ordered on the bill and amendments. Mr. Springer moved to lay the bill

on the lable. Lost-yeas 148, nays 156. The only Republicans who voted to lay on the table were Coleman of Lonisiana, and Lehlbach of New Jersey. Mr. Ewart, of North Carolina, was paired with Mr. Simonds, of Connecticut. The vote was then taken on Mr.

Hemphill's amendment, relative to the use of troops at the pools, and it was rejected-yeas 145, nays 156. Mr. Springer changed his vote from

the alirmative to the negative, and moved a consideration on the vote. Mr. Rowell moved to lay the motion on the table and was agreed to-yeas

154, nays 148. Mr. Springer moved to lay the bill upon the table, stating that his former mo-tion was to table the bill and pending

amendment. The speaker ruled the motion out of

Mr. Springer appealed, and the appeal was laid on the table—yeas 158, nays Mr. Springer, having voted in the

affirmative, moved a reconsideration. Mr. Grosvenor, of Ohio, made the point of order that this was a dilutory motion-a point which was sustained by the speaker.

Mr. Springer appealed, but the speaker declined to entertain the appeal. Mr. Springer protested that this was the first time in the history of the government that a motion to reconsider was not recognized, but his voice was drowned in calls for the regular order from the Republican side.

Mr. Springer moved to adjourn. Lost

yeas idi, nays 157. The bill was ordered engrossed and read a third time, by a vote-yeas 1.5,

Mr. Hemphill, of South Carolina, moved to recommit the bill. Lostyeas 148, nays 156.

Mr. Coleman and Mr. Lehlback voted with the Democrats in the affirmative, Mr. Springer, having voted in the negative, moved a reconsideration. The motion to reconsider was tabled

yeas 156, nays 149. Mr. Outhwaite moved an adjournment, which motion the speaker ruled

out as dilatory. Mr. Springer demanded the reading of the engrossed bill. But the speaker was prepared for this demand, the bill having been engrossed in advance and a burst of applause came from the Republican side when the clerk began the reading.

At 8:20, the reading of the engrossed copy of the bill was concluded, two hours and five minutes having been consumed thereby. The question was then put on the passage of the bill, the vote resulting—yeas 155, nays 149.
The house then, at 9:25, adjourned.
